Turner Syndrome - Challenges along Lifespan

We have great pleasure in inviting you to a meeting which is the first of its kind in North India. You will have the opportunity to meet other patients/parents of Turner syndrome, and also interact with a galaxy of experts. From USA we have Dr Shailendra Singh from Denver, who works closely with Turner syndrome Association of Colorado, Ms. Isani Singh, Researcher at MIT, Boston USA, working on sex chromosomal disorders. They will inform the latest advances in the diagnosis and treatment of Turner syndrome. From Sir Ganga Ram Hospital we have Dr Archana Dayal - Head of Department of Paediatric Endocrinology, Dr Ratna D. Puri and Dr I.C. Verma from the Institute of Medical Genetics and Genomics, Dr Abha Majumdar, Professor and Head, Department of IVF and Dr S.K. Aggarwal, Chairman, Department of Pediatric Surgery. From All India Institute of Medical Sciences, New Delhi we have Dr Vandana Jain, Head of Pediatric Endocrinology, Dr Rajesh Khadgawat, Professor in the Department of Endocrinology, Dr. Anita Saxena, Professor of Cardiology, Dr. Madhulika Kabra, Professor and Head, and Dr. Neerja Gupta, Associate Professor from Genetics Unit, Department of Pediatrics. All of them are well-recognized experts in dealing with problems of Turner syndrome in India, and the best treatments that are available. Genetic diagnosis, enhancement of physical growth by growth hormone therapy, puberty and pubertal growth by hormones, heart disease and fertility issues will be discussed. A surveillance plan will be presented. To top it there will be a panel discussion during which the parents/patients will have plenty of time to ask their questions and get answers from the experts.

At the end of the meeting we plan to form a support group for Turner syndrome patients and families in North India.

We would request you to all to participate in large numbers and make the event a success. A limited amount of money is available to support travel for deserving patients/parents.

Sincerely,

Ishwar Verma and
Dr Ratna D Puri
Sir Ganga Ram Hospital
New Delhi

Dr Madhulika Kabra and
Dr Neerja Gupta
All India Institute of Medical Sciences,
New Delhi

Dr Shailendra Singh and Ms Isani Singh
